## Additional Information for Professional Grooming Services

We currently have five professional groomers, who specialize in all breeds and will groom your dog “just the way you like it.” All pets are groomed with a tender touch to ensure the safety and comfort of your pet.

Older, arthritic and extra large dogs will be quite comfortable in our “Special needs” area. This area is secluded in the rear of our shop to help ease the stress of their grooming visit. There are three separate holding areas that are roomy with a cushioned mat and soft bed in each.

Cage dryers are NEVER used in our shop. Each pet is dried by hand using professional blow dryers in three separate cubicles.

Because we care about your pet, we do not believe in “all day” visits. Appointments are taken throughout the day so that your pet will be returned to you in 2-3 hours. Pets are taken out for “potty breaks” frequently to ensure the comfort of your pet.

Customer service is our main priority. If you need anything during your visit with us, just ask. Our staff will do everything possible to ensure that your visit is enjoyable and to ensure that you are completely satisfied.
