

# Alax Vong

## Project 1 - Style Guide

### GRC 175 - Fall 2012

## Colors

---

 **#333**

Only these five colors may be used on the html elements of the site.

 **#CCC**

#333 is the overall text color.  
#CCC is for hovering over links.

 **#FFF**

#FFF is the color of the content box.

 **#900**

#900 is used to indicate the active page and to separate the links to other pages.

 **#FFC**

#FFC is the color of the inline stripe on the ribbon

## Logo

---

The font used in the logo is Futura Book. The 'A's are upside down 'V's.

A #CCC version may be used over a dark background if needed.

The logo may be used with permission via email:  
vonga@mail.tmcc.edu

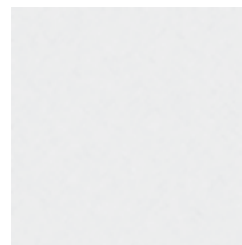

## Graphics

---

The Graphics used on the website are:

The ribbon to the left  
The background texture  
The TMCC logo.

The ribbon will be aligned top margin 0px and left margin 50px of the content area. The crosshatch texture will be used only as the background of the browser; never for the content area. The TMCC usage guidelines can be found here.

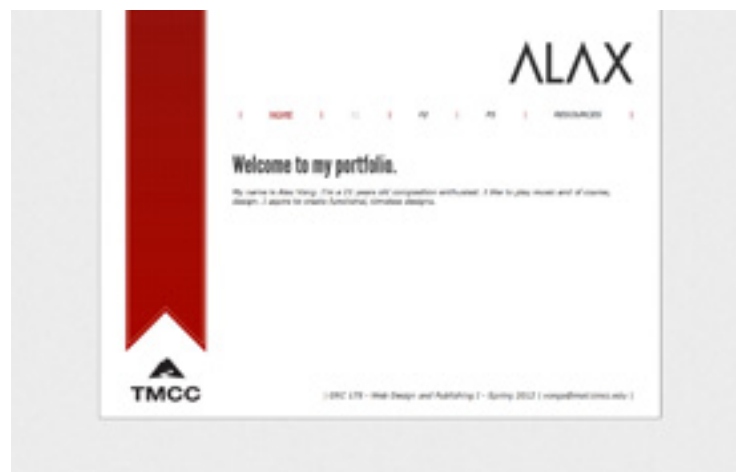

## Typography

# League Gothic

Verdana Regular

All html type is Verdana regular at 14px except the headings which is League Gothic at 45px.  
Subheadings and content links are Verdana with an <h3> tag.

## Design

This is an example of the home page. The P1 link is being rolled over.

This is the page for P1. There is an example of what the subheaders or content links should look like.
